**Located Graves of Soldiers and Patriots
of the American Revolution**

12-9-80

Locating graves of Revolutionary Soldiers was started by the National Society Daughters of the American Revolution in 1897-98. During the first year 32 graves were reported. This task is continued yearly through reports compiled by each State Historian and submitted to National Headquarters. Previous Lists were printed in the annual Smithsonian Report which has been discontinued. (Check Price List from Office of Corresponding Secretary General for availability.) A card file of these located graves is maintained in the Office of the Historian General; however, no further information is available on an individual soldier from this office.

*Located Graves of Soldiers and Patriots
of the American Revolution
March 1, 1974—March 1, 1975*

Between March 1, 1974 and March 1, 1975 NSDAR located 590 graves in 26 States. Data on those graves are provided in the following tabulation:
